## **(1) SCOPE**

The investment Policy shall apply to all funds under control of the Board. Detailed guidelines are attached to and made a part of this Investment Policy Statement.

## **(2) INVESTMENT OBJECTIVES**

1. To obtain a reasonable total rate of return – defined as income plus realized and unrealized capital gains and losses – commensurate with the Prudent Person Rule.
2. To obtain reasonable consistency of returns on a year-to-year basis, with concern for loss of capital being paramount.
3. To have the ability to pay all benefit and expense obligations when due.
4. To maintain sufficient funding for (a) unexpected developments, (b) possible future increases in benefits and/or (c) reduction in expected returns on investment or interest rate assumptions.

## **(3) PERFORMANCE MEASUREMENT**

The Board has specified performance measures as are appropriate for the nature and size of the assets within the Board's custody. Those performance measures are set forth in the Internal Controls section of this Investment Policy.

## **(4) INVESTMENT AND FIDUCIARY STANDARDS**

In performing its investment duties, the Board shall comply with the fiduciary standards set forth in the Employees Retirement Income Security Act of 1974, 29 U.S.C. §1104(a)(1)(A) – (C), meaning that Board members must discharge their duties with respect to the Plan solely in the interest of participants and beneficiaries and for the exclusive purpose of: (a) providing benefits to participants and their beneficiaries and (b) defraying reasonable expenses of administering the Plan; with the care, skill, prudence and diligence under circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims; by diversifying investments of the plan so as to minimize risk of large losses, unless under the circumstances it is clearly prudent not to do so. In the event of conflict with other provisions of law authorizing investments, the investment and fiduciary standards set forth in this section shall prevail.

## **(5) AUTHORIZED INVESTMENTS**

The attached Investment Guidelines list investments authorized by the Board. Investments not so listed are prohibited. If on October 1, 2000, investments exceed the applicable limit or do not satisfy the applicable investment standard, such excess or noncompliant investment may be continued until it is economically feasible to dispose of such investment, but no additional investment may be made.

## **(6) MATURITY AND LIQUIDITY REQUIREMENTS**

The investment portfolio is structured in such a manner as to provide sufficient liquidity to pay obligations as they come due. To that end, the Board has attempted to match investment maturities with known cash needs and anticipated cash-flow requirements.

## **(7) PORTFOLIO COMPOSITION**

The Investment Guidelines establish parameters for investments and limits on security issues, issuers and maturities. Said Guidelines are commensurate with the nature and size of the funds within control of the Board. The Board believes that the Plan's risk and liquidity posture are, in large part, a function of asset class mix. The Board has reviewed long-term performance characteristics of various asset classes, focusing on balancing the risks and rewards of market behavior.

## **(8) RISK AND DIVERSIFICATION**

The Investment Guidelines provide for appropriate diversification of the portfolio. Investments have been diversified to the extent practicable to control risk of loss resulting from over concentration in a specific maturity, issuer, instrument, dealer or bank through which financial instruments are bought and sold. The Board recognizes the difficulty of achieving the Plan's investment objectives in light of uncertainties and complexities of contemporary investment markets. The Board also recognizes that some risk must be assumed to achieve the Plan's long-term investment objectives. In establishing the risk tolerances, the Plan's ability to withstand short and intermediate term variability has been considered. However, the Plan's strong financial condition enables the Board to adopt a long-term investment perspective.

## **(9) EXPECTED ANNUAL RATE OF RETURN**

The desired investment objective is a long-term rate of return on assets, net of investment expenses, that is at least equal to the actuarial assumption and which is five percent greater than the anticipated rate of inflation as measured by the Consumer Price Index (CPI). The target rate of return is for the current year, for each of the next several years and for the long-term thereafter. The target rate of return has been based on the assumption that future real returns will approximate the long-term rates of return experienced for each asset class in the Investment Guidelines. Because market performance varies and a fixed percent return may not be meaningful during some periods, the Board has established performance benchmarks for Managers, as set forth in the Internal Controls section of this Investment Policy. Over a complete business cycle, the Plan's overall annualized total return, after deducting investment and transaction costs, should perform above the median of an appropriate universe and above a customized index composed of various market indices weighted by the strategic asset allocation of the Plan's assets.

## **(10) THIRD-PARTY CUSTODIAL AGREEMENTS**

All assets shall be held by a third party, and all securities purchased by, and all collateral obtained by, the Board shall be properly designated as an asset of the Plan. No withdrawal of

assets, in whole or in part, shall be made except upon authorization by the Board. Securities transactions between a broker-dealer and the Custodian involving purchase or sale of securities by transfer of money or securities must be made on a "delivery vs. payment" basis to ensure that the Custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction.

#### **(11) MASTER REPURCHASE AGREEMENT**

All approved institutions and dealers transacting repurchase agreements shall execute and perform as stated in the Master Repurchase Agreement. All repurchase agreement transactions shall adhere to requirements of the Master Repurchase Agreement. This provision does not restrict or limit the terms of any such Master Repurchase Agreement.

#### **(12) BID REQUIREMENT**

The Board shall determine the approximate maturity date based on cash-flow needs and market conditions, analyze and select one or more optimal types of investment and competitively bid the security in question when feasible and appropriate. Except as otherwise required by law, the most economically advantageous bid must be selected.

#### **(13) INTERNAL CONTROLS**

The attached system of internal controls and operational procedures has been adopted by the Board and shall be reviewed by its independent certified public accountants as part of any financial audit of the Plan.

In addition, the Board has adopted the following internal controls with reference to selection and review of Money Managers:

- A. Selection of Money Managers. The Board, with assistance from the Investment Consultant, has selected, and will select, appropriate Money Managers to manage Plan assets. Managers must meet the following minimum criteria:
  1. Be a bank, insurance company, investment management company or investment adviser, as defined by the Investment Advisers Act of 1940.
  2. Provide historical quarterly performance numbers, calculated on a time-weighted basis, based on a composite of fully discretionary accounts of similar investment style, reported net and gross of fees.
  3. Provide detailed information on the history of the firm, key personnel, key clients, fee schedule and support personnel.
  4. Clearly articulate the investment strategy that will be followed and document that the strategy has been successfully adhered to over time.

- B. Duties and Responsibilities of Money Managers.** The duties and responsibilities of each Money Manager retained by the Board include:
1. Managing Plan assets under its care, custody and/or control in accordance with this Investment Policy or in accordance with separate written agreements when modification is deemed prudent and desirable by the Board.
  2. Exercising investment discretion (including holding cash equivalents as an alternative) within the objectives and guidelines set forth in this Investment Policy.
  3. Promptly informing the Board in writing regarding all significant and/or material matters and changes pertaining to the investment of Plan assets, including, but not limited to:
    - a. Investment Strategy
    - b. Portfolio Structure
    - c. Tactical Approaches
    - d. Ownership
    - e. Organizational Structure
    - f. Financial Condition
    - g. Professional Staff
    - h. Recommendations for Guidelines Changes
    - i. All legal, SEC and other proceedings affecting the firm
  4. Timely voting all proxies and related actions in a manner consistent with the long-term interests and objectives of the Plan as set forth herein. Each Manager shall keep a detailed record of said proxy voting and related actions and will comply with all regulatory obligations related thereto. Reports of such voting and actions shall be delivered to the Board no less frequently than quarterly.
  5. Utilizing the same care, skill, prudence and due diligence under the circumstances then prevailing that experienced investment professionals acting in a like capacity and fully familiar with such matters would use like activities for like retirement plans with like aims in accordance with all applicable laws, rules and regulations from local, state, federal and international political entities as they may pertain to fiduciary duties and responsibilities.
  6. Acknowledging and agreeing in writing to their fiduciary responsibility fully to comply with this entire Investment Policy, as same may be modified from time to time.
- C. Monitoring of Money Managers.** Quarterly performance will be evaluated to test progress toward the attainment of long-term targets. The Board understands that there may be short-term periods during which performance deviates from market indices. During such periods, greater emphasis shall be placed on peer performance comparison with managers employing similar styles.

From time to time, but no less than quarterly, the Board will meet to focus on:

1. Manager's adherence to this Investment Policy.
2. Material changes in the Manager's organization, investment philosophy and/or personnel.
3. Comparisons of Manager's results to appropriate indices, specifically the S&P 500 index for Inverness equities, the S&P 400 index for RhumbLine, the Russell 2000 index for Wellington, the MSCI EAFE index for WHV, the Russell 1000 Growth for Logan, the Russell 1000 Value for RBC, the NCREIF Property Index for J.P. Morgan and a 50/50 blend of the Barclays Capital Government/Credit and Government/Credit Intermediate indexes for Inverness fixed income and the Citigroup World Government Bond Ex-US for Wells.
4. The risk associated with each Manager's portfolio, as measured by variability of quarterly returns (standard deviation), which should not exceed that of the benchmark index without a corresponding increase in performance above the benchmark index.

In addition, the Board will focus on:

1. The Manager's performance relative to managers of like investment style or strategy. Each manager is expected to perform in the upper half of its respective style universe.
2. The Plan's investment performance results compared to the Manager's overall composite performance figures to determine unaccounted for dispersion between the Manager's reported results and the Plan's results. The Manager shall provide composite data if requested.

The Board is aware that ongoing review and analysis of Money Managers is as important as the due diligence utilized during the manager selection process. Accordingly, a thorough review and analysis of the Money Manager will be conducted if:

1. A Manager performs in the bottom quartile of its peer group over two consecutive quarters or over an annual period.
2. A Manager falls in the "southeast quadrant" of the risk/return scattergram for a three or five-year period.
3. A Manager underperforms its index for four consecutive quarters.

Further, a Manager may be replaced at any time and for any reason, including but not limited to the following:

1. A Manager consistently performs below the median of its peer group over rolling three-year periods.
2. A Manager has a consistently negative alpha over rolling three-year periods.

The following events also warrant immediate review of the Manager:

1. Changes in professional staff.
2. Significant loss of business.
3. Significant increase in business.
4. Change in ownership and/or control.

#### **(14) CONTINUING EDUCATION**

All Board members are encouraged and expected to attend continuing education seminars concerning matters related to investments and responsibilities of Board members. Without limiting the foregoing, Board members are pre-authorized to attend certain conferences held within the state of Florida.

#### **(15) REPORTING**

The Board shall submit an annual report to the City of Miami Beach. The report shall include investments in the portfolio by class or type, income earned and market value. The annual report shall be available to the public.

#### **(16) FILING OF INVESTMENT POLICY**

Upon adoption by the Board, this Investment Policy shall be promptly filed with the Florida Department of Management Services, the City of Miami Beach and the Actuary. The effective date of this Investment Policy, and any amendment hereto, shall be 31<sup>st</sup> calendar day following the filing date with the City.

#### **(17) VALUATION OF ILLIQUID INVESTMENTS**

Investments and assets for which a generally recognized market is not available or for which there is no consistent or generally accepted pricing mechanism are prohibited.

**THE CITY PENSION FUND FOR FIREFIGHTERS AND POLICE OFFICERS  
IN THE CITY OF MIAMI BEACH  
INVESTMENT POLICY GUIDELINES  
REVISED JUNE 18, 2015  
EFFECTIVE DATE AUGUST 1, 2015**

**I. FOR ALL INVESTMENT MANAGERS**

**Purpose of Investment Policy Statement**

The Pension Board Trustees maintain that an important determinant of future investment returns is the expression and periodic review of the Fund's Investment objectives. To that end, the Trustees have adopted this statement of Investment Policy.

In fulfilling their fiduciary responsibility, the Trustees recognize that the retirement system is an essential vehicle for providing income benefits to retired participants or their beneficiaries. The Board also recognizes that the obligations of the Fund are long-term and that investment policy should be made with a view toward performance and return over a number of years. The general investment objective, then, is to obtain a reasonable total rate of return - defined as interest and dividend income plus realized and unrealized capital gains or losses - commensurate with the Prudent Investor Rule and any other applicable statute.

A reasonably consistent and adequate return, protection of the assets against the inroads of inflation and safety of the assets are paramount. However, the volatility of interest rates and securities markets make it necessary to judge results within the context of several years rather than over short periods of one or two years or less. Performance will be measured quarterly.
